ALUMNI AND STC

The success of an educational institution depends on the performance of its Alumni. STC has established an Alumni Association which functions very actively with a purpose. Thousands of our alumni are occupying high positions in different organizations spread all over India and abroad. Many of them are very successful entrepreneurs who have set themselves as role models for others. They need a network among themselves for extending their services to their Alma Mater. STC Alumni Association provides the right platform for the network of our alumni. STC is quite confident that the involvement and the promotional attitude of the members of STC Alumni will definitely steer the institution into limelight and prominence and take it to greater heights in terms of students attitude, quality of education and future vision.
